

## Media release

# Mikron signs new licence agreement with United Grinding Group, now United Machining Solutions

Boudry, September 18, 2025

Following the acquisition of the “Machining Solutions Division” of Georg Fischer Group (GF) by United Grinding Group, now United Machining Solutions, (UMS), the Swiss Mikron Group (Mikron, SIX: MIKN) and UMS have finalized a new license agreement relating to the use of the trademark Mikron Mill, which Mikron licenses to UMS’s new group company for use within the scope of the milling machine business as conducted by the former GF Machining Solutions Division.

While this license agreement does not represent any structural or ownership relationship between UMS and Mikron, it continues the long-standing licensing arrangement originally established with GF in 2000, now aligned with the new ownership structure of GF Machining Solutions Division.

Mikron welcomes UMS’s continued commitment to upholding the brand's reputation as a leading example of Swiss manufacturing excellence.
