About Emmi

Emmi is the leading manufacturer of high-quality dairy products in Switzerland. Its roots date back to 1907, when it was founded by dairy farmer cooperatives in the Lucerne region. With its focussed strategy, innovative products and brand concepts established beyond Switzerland, such as Emmi Caffè Latte and Kaltbach cheese, Emmi has grown into an internationally active, listed group (EMMN) with a strong local presence in 15 countries.

Emmi's business model is traditionally based on a careful approach to nature, animals and people. In this way, Emmi creates the best dairy moments, today and for generations to come, while also contributing to value creation in rural regions. The company distributes its quality products in around 60 countries and manufactures these at 72 of its own production sites in 13 countries. With around 12,000 employees, around 75% of whom work outside Switzerland, the Emmi Group generated sales of CHF 4.3 billion in 2024.
